PROFILE

Hi, my name is Erik Allmuça I began my journey in cybersecurity over 2.5 years ago and have since dedicated myself to protecting digital systems, analyzing vulnerabilities, and strengthening network defenses. With a strong focus on ethical hacking, system hardening, and proactive threat mitigation, I go beyond conventional security practices — delivering tailored, high-impact solutions. Cybersecurity isn't just my field — it's my passion and mission.

WORK EXPERIENCE

Setup Shpk

JUNE 2024 - PRESENT

IT Technician & Support

- SETUP IT Solutions — [Tirana/Albania] June 2024- Present Provided day-to-day technical support to internal staff, ensuring smooth IT operations across the company. Configured and deployed PCs within a Windows Domain environment, maintaining proper group policies and user permissions. Managed user accounts in Windows Server, including creation, deletion, and access rights adjustments using Active Directory. Installed, configured, and maintained network devices including routers and switches, ensuring secure and reliable network connectivity. Performed system formatting and OS installation, including driver and essential software setup for end-users. Diagnosed and resolved hardware, software, and networking issues across the organization. Maintained IT documentation and supported onboarding/offboarding procedures from an IT infrastructure standpoint
